# VINYL BACKDROPS

An extensive and exclusive range of over 1000 backdrop and floordrop designs, to give every photographer and creative the opportunity to build sets quickly and almost anywhere.

All of our backdrops are made in Great Britain by our team of industry experts. Using 450gsm durable and cleanable vinyl, our backdrops are incredibly strong and will withstand the most demanding environments. Metal eyelets can be added to aid hanging them or alternatively they can be clamped, fixed to poles or suspended to the wall with our MAGNA-fix kit.

These multi-award winning backdrops come as either single drops which you can mix and match or doubles which conveniently incorporate both a floordrop and backdrop in one piece. Each backdrop you order will come presented in its own acrylic carry/storage tube.

Please note any backdrop with a baseboard skirting board in the design will only be visible in the medium sizes and above.

Our products are hand made and therefore artwork crop may differ and colours may vary slightly from sample images. Sizes may sometimes vary by 2-3% bigger or smaller than the advertised measurements as everything is cut by hand.

All backdrops are made to order just for you therefore no returns are accepted unless your backdrop has arrived damaged in which case we need to be made aware within 24 hours of delivery.

# ProFabric BACKDROPS

For creatives and photographers looking for a backdrop that resembles a traditional hand painted canvas old master our ProFabric backdrops will hit the mark.

Made from 260gsm 100% polyester ProFabric has the look and feel of canvas/muslin, yet its lighter and can be cleaned with a soft sponge and water. It has a non slip back and doesn't wrinkle easily, if wrinkles do occur they usually hang out or can be lightly steamed or cool ironed using a cloth over the backdrop.

Like our vinyl backdrops, ProFabrics are printed using state-of-the-art UV-printing technology making the print tough, long-lasting, non-fade and easy to wipe clean.

The ProFabric range is offered in most sizes and are available in over 700 designs. Widths of 6ft (1.82m) and under come wrapped or attached to a sturdy 2 inch card core so can easily slip on to any backdrop support system or be detached is needed. The smaller sizes are perfect for newborns, little sitters, headshots and pets.

The larger sizes come as standard in an 8.92ft (2.72m) to fit most standard roller systems and in lengths of 8.92ft, 15ft and 20ft although custom lengths can be ordered. All of the larger size ProFabric backdrops come mounted to a 2 inch lightweight aluminium backdrop pole so you can simply hang the drop straight up on to most roller systems or use a backdrop support system.

### ‘COME DANCE WITH ME’

Belfast, Northern Ireland based photographer Ross McKelvey, is a highly acclaimed portrait and studio photographer, running Catchlight Studio close to the City Centre.

He was named No.1 in the World for large Monochrome exhibition prints for both 2017 and 2018 by the Photographic Society of America in its Annual “Who’s Who in Photography” publication. In 2019 he was awarded Master of FIAP for a panel of 20 fine art monochrome prints, featuring female dancers, gymnasts and ballerinas.

Ross was excited to produce his own collection of backdrops for Click Backdrops, having successfully used several of our existing vinyl backdrops in his studio and on his studio workshops. He knows from experience that a quality backdrop can make or break a picture and looks forward to seeing what people can produce from this collection. It is no surprise that his collection is entitled ‘Come Dance With Me’ as these designs are simply perfect for capturing atmospheric images of dancers.

She is a qualified, award winning and highly experienced newborn photographer with an established client base and is in demand by her clients for her newborn photography. Elli is an Elinchrom lighting ambassador and a Fujifilm X Photographer.

Elli has a dedicated newborn studio in Lincolnshire and has trained people from around the world. She believes it is her strong business background, including a First Class Honours Business Management Degree, that has helped her photography business grow so profitable.

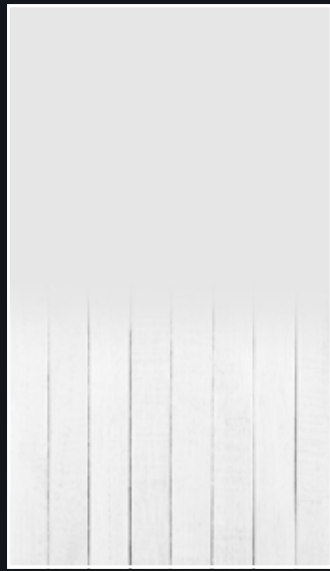

It was Elli that came to us a few years ago with the idea of the Double Backdrops, as she noticed international trends for the product. Taking here valuable advice and guidance we immediately started designing a range of Make Mine A Double backdrops which combine flooring and backdrop in one convenient piece, a year later due to growing demand we launched a larger version called the Make Mine A Double Plus.

The designs you see here in the 'Simply Range' are designed in conjunction with Elli who loves shooting with soft and neutral colour palettes.

# SIGNATURE COLLECTION DUOFLATS

*Elli Cassidy* AIPP/N

DuoFlats are a fantastic dual shooting zone backdrop designed with newborn photography in mind. Each backdrop is 4ft X 10ft (1.22m x 3.04m) in size and split in to two zones of equal size. The idea behind the dual zones is for quick set changes during challenging newborn shoots. Using DuoFlat backdrops photographers can have both sides of the backdrop setup with a different set of props and simply move the baby from one to the other without having to move any lighting or equipment, thus giving you two sets in one backdrop. These backdrop come lose rolled round a card core and can be cut in half should photographers want to reduce the footprint. In addition using MAGNA-fix or similar these backdrops can also be used to create a mini sweep backdrop by attaching one half up a wall.

## Carly Sullens

### ‘ART INFUSION’

Carly Sullens is a St. Louis based professional art photographer, artist, digital painter and an educator.

Carly Sullens studied painting and art history in both undergraduate and grad school, training in watercolour, oils, and acrylics. Seeing that different forms of art have shaped and evolved her as an artist, several years ago, she added photography to her portfolio.

Eventually, she began to apply her painting training, turning photos into works of art. Her photographs have earned several awards and been published. Now, she teaches other photographer’s how to turn their photos into a painting at PaintedCamera.com.

When approached by Click to design her own Signature Collection, Carly jumped at the opportunity to showcase her artwork and has created an incredible range of original art infused in to this range of backdrops.

"I'm speechless, these Click Props backdrops are STUNNING. The new LSP Actions Signature Collection designs are beautiful and the size is perfect. I want to wallpaper my house with them. PAULINA DUCZMAN CANNOT WAIT TO TRY MORE CLICK BACKDROPS

High quality and stunningly beautiful backdrops. Easy to assemble on my backdrop stand. The ProFabric drops come attached to a pole, so rolling them in and out is very simple. They are very easy to clean too.

Highly recommended. I cannot wait to try more.

SARAH WILKES CANNOT RECOMMEND CLICK PROPS BACKDROPS ENOUGH

I cannot express how much I love Click Props Backdrops. The quality is phenomenal as well as their customer service. These backdrops have enabled me to create exquisite fine art images that stand apart from the crowd. What's more the ProFabric backdrops come mounted on an aluminium pole which enables me to hang them with no problem at all. I cannot recommend them high enough.

The backdrops I have from Click Props Backdrops have given me the ability to give my corporate clients some fantastic new options beyond the usual solid colors and canvases, all without going on location or compositing. The backdrops we ordered from Click haven't just delighted our clients, they have led to more sales as well.

NATASHA INCE CANNOT BELIEVE HOW AMAZING CLICK BACKDROPS ARE!

Wow!! I cannot believe how amazing these backdrops are. I am so in love!! The fact that they come rolled on a pole and fit so easily on my backdrop system is so convenient. It really makes a huge difference not having to unfold them. I love being able to offer variation to my clients but in an easy way with no fuss, and these Click Props backdrops allows me to do that. The quality is simply outstanding and the designs are beautiful. I cannot wait to get more!

LINDSAY WALDEN ON WHY SHE LOVES HER CLICK PROPS MOTORIZED BACKDROP SYSTEM

I love switching backdrops multiple times mid-session and it is literally as easy as pushing a button. It has allowed me to offer even more backdrop options during a session and it works well with every type of backdrop. It is far more professional looking than the old pulley systems and easier to use and my clients comment on it every session. I also love the gorgeous fine art backdrops I ordered from Click to go along with the system and use them in every session. This system is probably my favourite piece of equipment in the studio apart from my cameras."

GARY HILL FSWPP ONLY USES CLICK PROPS BACKDROPS AND HERE'S WHY

As a fine art portrait photographer backdrops are really important to me. Over the years I have tried all of them and have even painted my own. However, when I got involved with the ProFabric and Masters ranges at Click Props Backdrops I discovered exactly what I have been looking for. Fantastic printing, superb designs and the perfect material means I only have Click Props backdrops in the studio and on the road with me. One word, Superb!

ELLI CASSIDY BSC AMPA ASWPP REVEALS WHY CLICK PROPS ARE HER 1ST CHOICE

Click Props Backdrops have been a wonderful and vital addition to my studio, they have enabled me to offer a large variety of looks and accessories to my client shoots, keeping my newborn portraits fresh and current. The 'Make Mine a Double' backdrops are great quality, they save space, hang well with no creases. Using Click's backdrops for several years now and being their first Signature Collection creator, they are my first choice to use myself and recommend to my students on a regular basis.
